## Guidance section

Water Byelaws Domestic Development Form

These guidance notes relate to each numbered question on the form.

### 1. Form Details

Please provide your details and as much information as possible about your development.

### 2. External Water Byelaws Compliance:

There are three options to prove Water Byelaws compliance externally

- The plumbing is installed by a WaterSafe accredited plumber who issues a compliance certificate to Scottish Water and the Developer/house builder on completion of the work
- Scottish Water carried out Water Byelaws checks while completing a track inspection
- A remote track inspection is carried out by Scottish Water

**Please note:** External Water Byelaws compliance refers to the water supply pipe (from the internal property stop valve to the property boundary).

### 3. Internal Water Byelaws Compliance:

There are two options to prove Water Byelaws compliance internally.

- The plumbing is installed by a WaterSafe accredited plumber who issues a compliance certificate to Scottish Water and the Developer/house builder on completion of the work
- Scottish Water inspection

**Please note:** Internal Water Byelaws compliance includes all internal plumbing systems, water fittings and appliances connected to the public supply.
